

# 6 Easy Steps to safer kids

## It's So Easy to Begin...

Yello Dyno's *Safety Party* Curriculum.

The response of educators is one of relief when they see how easy, non-fearful and fun the lessons are to teach using the unique Yello Dyno Method™.

**- S A M P L E -**

[pages 1-2 not included]

### Step 1: Review the Curriculum Script: The Yello Dyno Pro Script

1. The Yello Dyno Pro Script is laid out in an easy-to-use format and follows the PowerPoint presentation. The slides for the PowerPoint are laid out nine to a page in this book.
2. Play the *Safety Party* PowerPoint as you read the script. Many slides have music, from Yello Dyno's *Can't Fool Me!* CD and Yello Dyno's voice from the *Safety Party* CD, plus two scenes from the *Can't Fool Me!* DVD.
3. Slides with Yello Dyno's voice from the *Safety Party* CD can be used with or without the Yello Dyno Puppet.

### Step 2: Use Drive Time for Safety Time: Yello Dyno's *Can't Fool Me!* CD

To save time, listen to the Yello Dyno *Can't Fool Me!* CD in your car. Most of the songs are enjoyable for adults too, and you will learn firsthand why Yello Dyno has already been chosen to help over three million children. Also, play the *Can't Fool Me!* CD for children, to see how quickly they learn the safety rules.

### Step 3: View the Award-Winning DVD: Yello Dyno's *Can't Fool Me!*

The *Can't Fool Me!* DVD is included with this curriculum. There are over 20 safety rules, as well as the foundation safety knowledge of The Yello Dyno Method™. Watch the video with kids at school or at home, to see how effective it is. After you have taught the lessons, use

the *Can't Fool Me!* DVD to reinforce the knowledge. Two of the scenes from this DVD are used in the script and are embedded in the PowerPoint presentation.

### Step 4: Scan the Book: *Raising Safe Kids In An Unsafe World*

This new edition of the teacher/parent handbook *Raising Safe Kids In An Unsafe World* is already in the hands of over 150,000 educators, law enforcement officers, and parents. The easy-to-read style gives you the opportunity to deepen your knowledge or use it as a resource guide for the specific lessons you are teaching. We recommend that you read the front matter and The Yello Dyno Method™.

### Step 5: Read the Activity Book: Yello Dyno's *Fun Way to Safe Kids* Song and Lesson Book

For a quick overview of the music, read the song lyrics, safety lessons and action steps (role-playing) that go with each song in this book. There is a reproducible Coloring Page classroom master for each song.

### Step 6: Have Fun: Try Out the Curriculum with a Class

You don't have to have everything perfect to teach Yello Dyno lessons. Kids become so involved that you will be able to relax and learn as you go.

# Teacher Script

## Yello Dyno's Safety Party

Grades PreK – 1

### Yello Dyno Pro Teacher Script

**Teacher Note:** Display PPSlide #3: Safety Rule #1.

**Teacher:** Today we are going to learn about something very important: how to stay safe. Do you know that you are very special? That's right. You are very special from the top of your head to the tip of your toes. (**Teacher Note:** put your hands on your head and then down on your toes.) Because you are very special, it is important to keep your whole person safe. (**Teacher Note:** Have the kids touch the top of their heads and the tips of their toes.)

#### YELLO DYNO'S SAFETY RULE #1: I HAVE THE RIGHT TO BE SAFE

**Teacher:** Does anyone know what personal safety means? These are big words! Personal means: just about me or just about you. For example: The shoes you are wearing are just yours. Right? Nobody else wears them. And your feet are just yours too, aren't they? Your whole body is just yours. SAFE means: Making sure all of you does not get hurt. All of you means your body, your heart, and your mind. So personal safety is all about keeping you safe!

**Teacher Note:** Display PPSlide #4-12: the letters S.A.F.E., one at a time. Then the word, SAFE. Next, talk about each letter.

**Teacher:** Now let's take a look at the word SAFE:

- S - See with an eye
- A - Act with footprints
- F - Heart with a bell
- E - Emergency and girl yelling

**Teacher:**

"S" is for See. See what is going on around you. Use your eyes to keep you safe.

"A" is for Act. If you feel you are in danger, Act immediately. Use your feet to Take Three Steps Back and Run Like the Wind!

"F" is for Feelings. Trust your Feelings. If you don't feel safe and something in your heart warns you like a bell, what do you do? You run and tell someone who will help you.

"E" is for Emergency. Get help! Use your voice to yell for help!

**Teacher:** Let's look at some pictures of kids to see if they are safe.

**Teacher Note:** Display PPSlides 13-17 as follows and discuss the safety issues of each one with your students:

1. Child running after a ball in the street with a car coming.
2. Child on a bike with a helmet (riding a bike safely).
3. Child giving directions to a man in a car.
4. Child crying in the midst of adults (child lost).
5. Yello Dyno yelling.

**Teacher:** Is it safe for this girl to run into the street after her ball? Is it safe to wear a helmet when you ride your bike? Is it safe to get close to someone in a car who has asked for directions? Is it safe to look scared and alone in a crowd of people?

**Teacher Note:** When the last picture in this group comes up, (the picture of Yello Dyno), begin with the following script.

**Teacher:** Oh! I was so busy helping you learn what personal safety means that I almost forgot that I have a very special message from Yello Dyno! He's going to be in the movie you watch today. Let's see what he has to say.

**Teacher Note:** Display PPSlide #18: the Safety Party CD Track 1 (for women) or PPSlide #19: Track 2 (for men) to introduce Yello Dyno.

**Yello Dyno Safety Party CD:**

**Track 1: For Women Introducing Yello Dyno**

**Track 2: For Men Introducing Yello Dyno**

Boys and girls, I'd like to introduce you to that Safety Maven of Soul, Yello Dyno! (YD): Ha! Ha! Hi Boys and Girls! I'm ol' Yello Dyno! I'm foot stompin', tail thumpin' glad to be here! We're gonna have fun with safety. Be sure to listen to my friend, 'cause I've given (him/her) my Yello Dyno Power and (he/she) is going to give the power to you! (pause) Let the show begin!

## Song: *The Yello Dyno Yell!*

Like an energetic pep rally, Yello Dyno himself gets off the *Can't Fool Me!* safety music concert to a "foot-stomping" start by teaching boys and girls how to yell for help properly. With his cool, soulful personality, he cuts right through children's lack of understanding about what makes a "from-the-gut" yell that will truly attract attention.

Yello Dyno's playful dialogue also breaks down children's natural embarrassment about yelling to attract attention to themselves in public places. And Yello Dyno teaches children important phrases to yell if they are ever in trouble, such as "This is not my dad!" What kid won't love being let in on how to yell and what to yell? Featured in the videos *Can't Fool Me!* and *Tricky People!*

### YELLO DYN0'S SAFETY RULE #2: I KNOW THE YELLO DYN0 YELL!

**Teacher:** Today we have special permission from your teacher to use our "outside voice" inside the classroom so you can learn from Yello Dyno what a great safety tool your voice is. Do you know what Yello Dyno's favorite thing to do is? Yell! What happens when you yell? You attract attention to yourself. Adults look to see if something is wrong. Now when you need help, you have to be sure people know you need help. If someone tries to take you somewhere that you don't want to go and you are crying, people will think you are just upset. They won't know you need help. But if you yell, "Help! This is not my dad!", or "Help! This is not my mom!", then everyone will know you need help. Now let's practice yelling with Yello Dyno!

**Teacher Note:** Display PPSlide #20: Safety Party CD Track 3.

#### Yello Dyno's Safety Party CD, Track 3: *The Yello Dyno Yell!*

**YD:** I'll tell you what. I'll share with you an ancient dyno secret handed down to me from my family over one million years ago. It's the secret of the Yello Dyno Yell! YEAH! Now, to learn to yell really loud, put your hands on your tummy and push out with your stomach when you yell! OK, ready?

**YD:** Say, YEAH!

**Kids:** YEAH!

**YD:** One more time, YEAH!

**Kids:** YEAH!

**YD:** Again, YEEAAAH!

**Kids:** YEEAAAH!

**YD:** You did it! You got the band to play! (Add Applause)

**YD:** As you all know, we all need a little help sometimes. If someone tries to take you away and you don't want to go, what do you do? You need help ... you got to have it! You've got to yell, "Help, this is not my DAD!" Now you try it.

**Kids:** Help! This is not my DAD!

**YD:** Yeah! You've gotta yell, "Help! This is not my MOM!"

**Kids:** Help! This is not my MOM!

**YD:** Yeah! "Help! This is not my BROTHER!"

**Kids:** Help! This is not my BROTHER!

**YD:** Yes! You have done it! You have the power! The Power of the Yello Dyno Yell! YEEEAH!

**YD:** Hope you enjoy the show ... and remember ... SAFETY RULES!

**Teacher Note:** After this PPSlide, review how to yell properly from the stomach. Also reaffirm how well they did. Now, display PPSlide #21: Safety Party CD Track 4.

#### Yello Dyno Safety Party CD, Track 4: *The Yello Dyno Yell! You Are Dynoriffic!*

**Teacher:** Yeah!! You guys did Dynoriffic! Now you have the power of the Yello Dyno Yell!

**Teacher Note:** Display PPSlide #22: Safety Rule #2.

**Teacher: Remember:**

### YELLO DYN0'S SAFETY RULE #2: I KNOW THE YELLO DYN0 YELL!

# Quick Review

[pages 13-21 not included]

## #1 I Have the Right to Be Safe

- Knowledge is Power.**  
With the Yello Dyno Knowledge you have the Power to keep yourself safe.

## #2 I Know the Yello Dyno Yell!

- Yell! Yell! Yell!**  
Yell as loudly as you can. Yell to attract someone to help you. Yell to scare the Tricky Person away. Make your yell specific, such as - "This is not my dad!" or "I need help!"

## #3 Tricky People!

- Who Is A Tricky Person?**  
It's not what people look like, their age, or if you know them - it's what they ask you TO DO that matters.
- Review The Common Tricks.**  
Compassion, Family Emergencies, Attention and Affection, Misuse of Authority, Rewards and Bribes, Threats.

## #4 I Always Ask First

- Always Ask First.**  
Always ask your parent or guardian before you go anywhere.

## #5 I Can Take Three Steps Back!

- I Can Take Three Steps Back...**  
You should learn to stay out of arm's reach from anyone who makes you feel unsafe.
- Run Like The Wind!**  
If you feel unsafe, you should Run Like the Wind from a Tricky Person.

## #6 I Don't Keep Secrets

- Don't Keep Secrets.**  
You should not keep secrets that make you feel uncomfortable or unsafe.
- Tell Until Someone Listens.**  
You should tell your parent or someone you trust whenever you have a problem.

## #7 I Go to the Right Stranger for Help

- Go To The Right Strangers For Help.**  
Know what kind of strangers to go to for help if you are ever lost or in trouble: police, a store clerk, a lady or, best of all, a mother with children.

## #8 I Trust My Feelings

- Trust Your Instincts.**  
One of the most important lessons for keeping yourself strong and free is for you to understand that you can trust your feelings. If you feel unsafe, you can leave and ask for help from an adult you trust.

## #9 I Know My Body's Mine!

- My Body's Mine!**  
Your body is yours, and you have the right to set boundaries. You choose the level of physical touch that feels comfortable.
